MEMORANDUM FOR: Comptroller

SUBJECT : Establishment of SF Position, AF Division

25X1A 1. The Chief, AF Division has requested the establishment of a Finance Specialist position at the GS-13 level to be located in their Headquarters Support Staff, [REDACTED].

2. It is my understanding that the incumbent of this position would be responsible for performing TDY inspections of the numerous field stations and bases located in the AF area as recommended by a recently conducted Inspector General Survey Team and subsequent discussions with the Deputy Comptroller.

3. Please indicate your concurrence and/or comments and return the original of this memorandum for our records.

4. One way to accomplish this objective would be to add a qualified budget and fiscal man, preferably with field experience, as an additional deputy to the Chief, [REDACTED] of AF Division. The two deputies and the chief could alternate in taking field trips thoroughly covering all stations and bases. Such rotation could prevent the personal burden which would result from having one person travel almost constantly.

25X1A

5. The addition of one man in Headquarters with an extensive field trip (estimated to take four months) approximately every nine months is estimated to cost \$20,000 per year, most of which would not cause a drain on American foreign exchange. It is estimated that the establishment of [REDACTED] units, one in East Africa 25X1A2d1 and one in West Africa, would average at least \$200,000 per year, of which at least half would be a direct drain on gold outflow from America.

It is recommended that:

No. 15

In order to improve field financial support in Africa, the Deputy Director (Plans) request the Deputy Director (Support), to provide an additional slot in the grade of GS-12 in the [REDACTED] of Africa Division and that funds be budgeted for an extensive field trip approximately every nine months.
